Graphic Designer

## ABOUT ME

I have always been intrigued by product designs in my later stages of life. Designs like that of shoes, clothes, vehicles, packaging, etc always amazed me, seeing how this aspect of a product manipulates our sub-conscious to choose one product over the other. This factor played a major role for myself in deciding my career path.

## AREA OF EXPERTISE

### Social media post design

- I have a desire to take larger ads and creating **much smaller versions** of them.
- I do not mind doing 20 different versions of the same ad campaign.

### Package design

- I am willing to work with simple but sometimes complex **package design templates**.
- I have a desire to **feel** and **touch** my finished designs.

### Print design & Editorial design

- I love designing **magazine layouts** and **spreads**.
- I enjoy working with **large** blocks of copy.

### Logo design

- I love vector programming and **long** project timeframes.
- I love to create and **brainstorm** creative concepts.
