Profile

I am a highly skilled communicator and manipulator with a deep passion for sales success. My adaptable communication style allows me to effortlessly build meaningful connections with clients and prospects, fostering trust and rapport. With a proven track record of leadership, I excel at motivating teams and creating a collaborative environment that drives exceptional results.

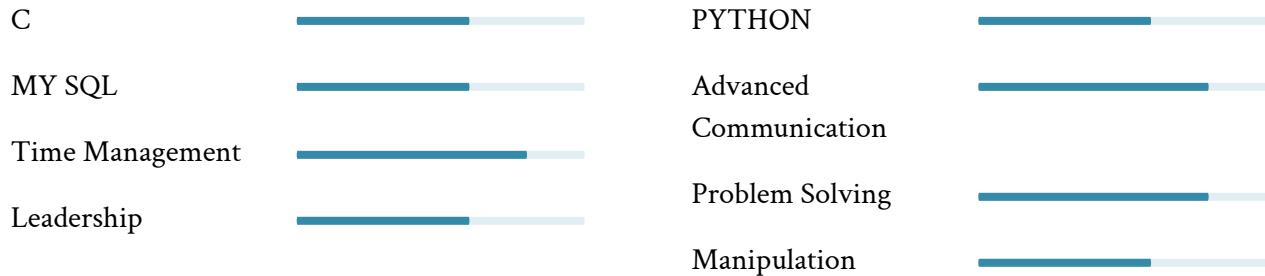

Seeking a full-time career in sales, I am eager to leverage my exceptional communication, manipulation, and leadership skills to contribute to the growth and overall success of an esteemed company. I thrive in dynamic environments and am committed to achieving outstanding outcomes in sales.

If you are in need of a skilled communicator, adept manipulator, and motivated leader to propel your sales efforts, I am excited to discuss how my unique talents align with your company's objectives. Please reach out to explore how I can make a significant impact on your team's achievements.

Education

2019 – 2023	B-Tech , Guru Nanak Institute of Technology
Ibrahimpatnam, India	65%
2017 – 2019	Intermediate , Gouthami junior college
Nalgonda, India	95.5%
2017	SSC , Gandhiji English Medium School
Chandur, India	93%

Projects

Eyantra Robotic Competition, Soil Monitoring Bot

To design an FPGA based robot that traverses an abstracted arena of the agricultural field. The robot identifies requirements of soil in various farmlands, communicates and fulfils them by depositing corresponding supplies.

Mini Project,

Authentication and Key Agreement Based on Anonymous Identity for Peer-to-Peer Cloud

Proficient in addressing the prevailing challenge of cross-cloud data migration faced by mobile users, enabling seamless transition between providers. Developed an efficient data migration model and implemented a mutual authentication and key agreement scheme based on elliptic curve certificate-free cryptography. Built trust between cloud providers and facilitated secure cross-cloud data migration. Demonstrated superior performance through mathematical verification and security evaluation, showcasing significant reductions in computational and communication costs compared to existing schemes. Adept at leveraging technical expertise to enhance data transfer processes and ensure seamless transitions for users.

Major Project,

A SECURE OPTIMIZATION ROUTING ALGORITHM FOR MOBILE AD HOC NETWORKS

Skilled in securing Mobile Ad hoc Networks (MANET) with a focus on dynamic network topologies. Implemented intrusion detection systems and utilized the Bacteria for Aging Optimization Algorithm (BFOA) for trust-based secure and energy-efficient routing. Expertise in fuzzy clustering for selecting Cluster Heads (CHs) and identifying value nodes. Achieved exceptional performance with minimal energy consumption, low latency, high throughput, and an 83 percent detection rate. Proficient in mitigating packet dropping attacks. Strong track record of enhancing network security and efficiency in MANET environments.

Organizations

2021 – 2022

Hyderabad

Street Cause EForce, Coordinator

It's an environmental unit of largest student run NGO in Hyderabad named Street Cause and i was the coordinator in it and got involved in many environmental friendly activities like plantation drive, seed bombing, lake cleaning etc.
