Experience

Frontend Developer
Tranquil CRM l Hyderabad
2022 - 2023

- frontend developer with 1 years of experience building responsive and user-friendly web applications. I am proficient in HTML, CSS, JavaScript, and frontend frameworks such as React JS.
- I have experience working with RESTful APIs and modern frontend build tools such as Webpack and Babel.
- I am also experienced in responsive design, cross-browser compatibility and accessibility best practices & have been responsible for designing and implementing new features for a CRM Software.

Project

1. **Tranquil CRM Software**

- CRM (Customer or Client Relationship Management) Software is manage clients and their requirements, organize the activities, and aggregate the database and have accessible communication through call, SMS, email, Whats App integration. This easy access through CRM Software helps companies to work faster, communicate with the clients with the right information and get more business.
- Usign HTML,CSS,JavaScript,jQuery,Bootstrap-5 for front-end and PHP with codeigniter for Back-end Technology.
